Did you know?

- + In China, 8 and 4 have a lot of meaning as numbers. This is because in Mandarin, the way '8' sounds also sounds like the word for 'rich', and so is considered lucky. The number '4' however sounds like the word for 'die' and so is considered very unlucky!
- + In a group of only 23 people, there is over a 50/50 chance that two people will share the same birthday!
- + No piece of paper can be folded in half more than 7 times
- + The chances of making two holes-in-one in a round of golf are one in 67 million to 1 – That means technically, you would have to hit 67 million balls to do it!
